MULTI BILLION DOLLAR REIKI Health Care Industry Bankrupted by recent class action lawsuit

Los Angeles, California: 137 REIKI healers and their trainers were shocked today by the swiftness of the Orange County California jury's verdict in favor of Melvin L Morse MD and his class action lawsuit on behalf of over one thousand victims of unregulated REIKI therapy.

Morse, initially had a low white count as a side effect of medication. However, after seeing an unlicensed and unregulated REIKI master for three sessions, he developed fulminate leukemia with white counts 100 times normal. The Court room erupted in fury when Morse tearfully disclosed that one of the healers he visited could only organize the data stream of a random chaos generator to a seven per cent level! The defendants were visibly shaken as Orange County matrons screamed at them "7%, our family dog can do 12% just by licking you!". They were hustled out of the courtroom for their own protection as the audience waved mock tasers at them and threatened to give them a jolt of their own energy.

Other plaintiffs described such abuses as being the victims of unwanted prayer energy, unwanted remote REIKI healing, and REIKI interventions by healers who candidly admitted that they were simply channeling energy into the plaintiff's bodies with no idea where it was coming from, how it was being transmitted, how much was actually being passed into the patients bodies, and no discussion of ancillary spiritual helpers who might be augmenting the energy flow. One defendant was proven to have no less than seven spiritual helpers present during healings, when the patient's physician clearly had written on the prescription for treatment "no more than three spirit guides for this patient". Furthermore, this same defendant defiantly admitted that she had not calibrated any of the spirit healers present during any of the sessions. As she defiantly claimed that one of the spirit masters was in fact her own REIKI master, she was ordered in contempt of court and jailed by a furious Judge saying that he didn't care if it was the founder of the REIKI method himself, he personally wouldn't permit anyone to do REIKI on him without three separate calibrations on the chaos generator, adding "my god woman, you permitted a 97 year old man to have REIKI done on him by a spirit master later proven to organize the REG data stream to the 99% level for well over 24 hours." The ~~defendant~~ ^{ELDERLY MAN} has been in a profound vegetative state ever since the ill fated session. The defendant is being held on contempt charges until LA prosecutors draw up formal charges including involuntary manslaughter.

Jury Interviews after the stunning verdict indicated that they would have recommended the death penalty for the healers, except that it was a civil trial. They were profoundly moved by the dramatic appearance of Jane Sherman Ph.d.. Jurors cried as Sherman described "the dark ages of REIKI" when healers were given certificates at weekend workshops. They gasped as she described a time in which there was no calibration available to monitor REIKI energetic influx, or systematic and regulated means of registering spirit helpers. The trials most dramatic moment came when she drew herself up to her full 5 foot six inch height, and pointed her finger at the REIKI defendants, calmly repeating "Shame, shame" over and over again. Soon the entire courtroom was clapping in rhythm, while the defendants hid under their chairs.
